

## Harry Minnie

**Nationality:** South African

 **+27 76 591 9127**

**Date of birth:** 06/12/1994

**Gender:** Male

 **Email address:** [harryminnie6@gmail.com](mailto:harryminnie6@gmail.com)

 **Address:** 3 Hoogenhout Street, Kleinbron Estate, 7560 Cape Town (South Africa)

**LinkedIn:** <https://www.linkedin.com/in/harry-minnie-5ab96bb4/>

**Portfolio:** <https://harryminnie6.github.io/Portfolio/>

## DIGITAL SKILLS

---

Front-End Development

**React.js / Material UI / Web Development: HTML 5, CSS, JavaScript / Word Press / BOOTSTRAP 3/4 / GIT (GitHub) / Knowledge of Git**

Back-end Development

**postgresSQL / NodeJS and ExpressJs / Firebase (Functions, Auth, Firestore, Storage) / Basic knowledge of PHP programming language**

**Microsoft Office: Word, Excel, Access, Power Point, Outlook.**

## PROJECTS

---

### Covid-19 Tracker

A live Covid-19 Tracker where the world wide statistics can be viewed or individual country statistics can be viewed.

*~Made using React and Material UI (with React Hooks)~*

Demo: <https://harryminnie6.github.io/corona-tracker/>

### NodeJS login

A login and logout application using NodeJS, EJS (embedded JavaScript), Express.js, bcrypt and passport. This was made to be used and built on for future projects where login/logout functions are needed.

*~ Made using EJS (embedded JavaScript), Express.js, bcrypt, passport HTML5, CSS3~*

Demo: <https://nodejs-jwt-login.herokuapp.com/login>

## Random buy E-Commerce

An ecommerce site where to users can add items to their cart, proceed to checkout and process the payment. This project was made to focus on Stipe Payment and the checkout process.

*~Made using React, Stripe online payment, deployed to firebase~*

Demo: <https://random-buy-ecommerce-37454.web.app/>

## Developer Searcher

A clone of the leading ecommerce retailer in South Africa. The user is able to create and account, login, add items to their cart, remove items from their cart as well as log out. Sign-in and Sign-out is handled by firebase authentication.

*~Made using React, MongoDB, Express.js, Node.js~*

Demo: <https://safe-ridge-27366.herokuapp.com/>

## "Fakealot" – Takealot clone

A clone of the leading ecommerce retailer in South Africa. The user is able to create and account, login, add items to their cart, remove items from their cart as well as log out. Sign-in and Sign-out is handled by firebase authentication.

*~Made with React, deployed to firebase~*

Demo: <https://takealot-clone.web.app/>

## Netflix-clone

A clone of the online streaming service Netflix. The site data is pulled from a third party API and displays the relevant information to the user. The user is able to scroll through the genres and view the trailer for the selected series or movie.

*~Made with React, deployed to firebase~*

Demo: <https://netflix-clone-3d128.web.app/>

## Concept site for Sunset skim-boards

A concept site for Sunset skim-boards. There is a link to the shop where users can view products and add them to the cart. When items are added to the cart they are stored in local storage for if a user closes the page, the data can be retrieved. Items in the cart can have their quantities increased/decreased and can also be removed from the cart.

*~Made with HTML5, CSS3 and JavaScript~*

Demo: <https://harryminnie6.github.io/Sunset-Skim-boards/>

## Weather Application

A weather app that displays the user's current location and weather conditions. It also has an extended four day forecast. The app gets information from a 3rd party API and displays the relevant information to the user.

*~Made with HTML5, CSS3 and JavaScript~*

Demo: <https://harryminnie6.github.io/Weather-app/>

### Rock Paper Scissors game

An interactive game of “Rock Paper Scissors” where the user plays against the computer.

*~Made with HTML5, CSS3 and JavaScript~*

Demo: <https://harryminnie6.github.io/Rock-Paper-Scissors/>

### Brick Breaker

A game of brick breaker. The game speed increases as the game progresses. If the ball passes the paddle the game is over.

*~Made with HTML5, CSS3 and JavaScript~*

Demo: <https://harryminnie6.github.io/brick-breaker/>

### Chrome Dinosaur Game (replica)

A similar version of the Google Chrome dinosaur game built with HTML, CSS and vanilla JavaScript. If the player touches an object the game restarts.

*~Made with HTML5, CSS3 and JavaScript~*

Demo: <https://harryminnie6.github.io/chrome-dino-replica/>

## EDUCATION AND TRAINING

---

### Responsive web design

**Free Code Camp** [ 11/2019 – 01/2020 ]

### JavaScript Algorithms and Data Structures Certification

**Free Code Camp** [ 01/2020 – 05/2020 ]

### The Modern JavaScript Bootcamp

**Udemy** [ 01/2020 – 04/2020 ]

### The Complete Web Developer in 2020: Zero to Mastery

**Udemy** [ 02/2020 – 08/2020 ]

### Complete React Developer (with Redux, Hooks, GraphQL)

**Udemy** [ 04/2020 – 07/2020 ]

### Become a WordPress Developer: Unlocking Power With Code

**Udemy** [ 06/2020 – 07/2020 ]

## WORK EXPERIENCE

---

### Quality Inspector

**GRI Towers South Africa** [ 04/03/2015 – Current ]

**City:** Cape Town

**Country:** South Africa

Welding Inspector/ Quality Inspector for the continuous manufacturing of Wind Towers in Atlantis, Cape Town, Western Cape.

### Quality Inspector

**Elgin Engineering** [ 13/12/2013 – 28/02/2015 ]

**Town:** Saldanha Bay

**Country:** South Africa

Welding Inspector/ Quality Inspector for the construction of five LPG storage tanks in Saldanha Bay, Western Cape.
